## PROFILE SUMMARY

Full Stack Developer experienced in building production-ready web applications using React, Next.js, Node.js, Express, and SQL databases. Delivered complete solutions including e-commerce admin panels, and dynamic UI features. Focused on performance optimization, scalable architecture, and seamless user experience. Continuously learning and applying modern web technologies to solve real-world problems.

## SKILLS

- JavaScript
- React.js
- Next.js
- Tailwind css
- Node.js
- Express.js
- MySql

## WORK EXPERIENCE

### MERN Stack - qubainfotech (currently working)

Jan 2026

Built full-stack apps using React, Node.js, and SQL.  
Optimized database queries to improve performance  
Developed scalable APIs with Express and Prisma  
Created responsive UI using React Next.js and Tailwind CSS  
Worked on end-to-end project development

## PROJECTS

### ERP system

Next.js sql

Developed an ERP system to manage users, data, and workflows efficiently

### Ajva Motors

React express.js MySql

Developed a full-stack web platform for AJVA MOTORS using Node.js, Express.js, React.js, and MySQL, featuring modules like Product Management, Blog, and Admin Settings and Dashboard. Implemented key modules: fs module, multer, archiver, bcryptjs, jwt token, mysql, mysqldump, body-parser, cors And dotenv.

### Resume builder

Next.js

Built a Resume Builder using Next.js with real-time preview, PDF export, and responsive UI. Used Zustand for state management and Tailwind CSS for modern design.

## Travel Booking Platform (Under Development )

Next.js Express.js node.js

Contributing to the development of a full-stack travel booking platform inspired by MakeMyTrip, including features like advanced search, booking system, and user authentication. Implementing responsive and optimized UI using React/Next.js and developing robust backend APIs with Node.js, Express, and SQL. Focused on performance, scalability, and real-world user experience.
